

Hydraulic Components

Fast and flexible delivery

- Pumps, motors and clutches
- Directional-, counter balance-, and proportional valves
- Filters
- Accumulators og bladders
- Water- and air oil coolers
- Standard cylinders
- Manufacturing of special cylinders
- Refurbishment of pumps and cylinders

Our specialists are ready to help

Our competent salesteam has many years of experience within hydraulic components, and are well prepared to help with finding the optimum solution for you.

	Components
	Piston pumps, gear pumps, inner ring pumps Directional valves, counter balance valves, proportional valves and accumulators
	Directional valves, proportional valves Filters for industry, marine og process Oil-analysis equipment and oil-cleaning equipment
	Gear pumps and piston pumps Directional valves, counter balance valves, proportional valves, Accumulators, hoses and fittings - hoses up to 2" and coolers
	Piston pumps Cartridge valves, proportional valves
	PVG og manoeuvre valves Hydraulic motors Gear pumps og piston pumps
	Filters for industry, marine and process Offline filtering Oil-analysis equipment and oil-cleaning equipment
	Ball valves
	Large range of cylinders, telescopic cylinders, brake cylinders Hand pumps Manually operated manoeuvre valves
	Wing pumps, piston pumps and accumulators (Built-in dimensions as Vickers and Rexroth)
	Clutch components and clutch basket
	Coolers: Water, oil and air (aluminium, stainless and brass) Manufacturers: Oiltech, Nissan, Bowman and Parker
	Standard electric motors, worm gears and cooling water pumps Explosion proof motors Zone 0-2
	Cartridge valves
