

# Portable Power Pack – Tension

## Single and dual pressure for hydraulic bolt tensioning

The Portable Power Pack – Tension series is a compact, reliable, and very precise hydraulic pump unit.

#### Supplied as variants:

- Various electrical power supply
- Single pressure 1500 or 2500 bar
- Dual pressure 1500/1500 or 2500/2500

<complex-block>

### Technical specifications:

Portable Power Pack - Tension series is a compact and lightweight unit which is easy to handle. This unit is most often used for supporting onsite service jobs in the marine and wind industries.

It is supplied in a sturdy and robust flight case which ensures protection during transportation

Single pressure and dual pressure units are available.

The single pressure power pack has 1 adjustable oil pressure range – either 0-1500 or 0-2500 bar.

The dual pressure power pack has 2 independently adjustable oil pressure ranges – each between either 0-1500 or 0-2500 bar allowing for instance 700 bar in channel 1 and 1500 bar in channel 2.

Туре	Pressure setting 1	Pressure setting 2		
	[bar]	[bar]		
Single pressure	0-1500 or 0-2500	N/A		
Dual pressure	0-1500 or 0-2500	0-1500 or 0-2500		

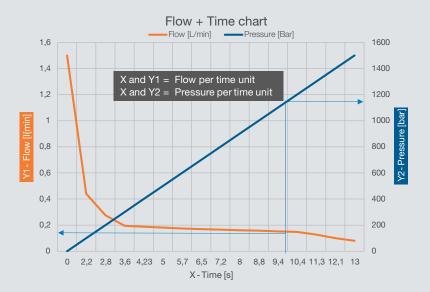

Portable Power Pack – Technical features									
Maximum Pressure	Electrical Voltage	Electrical frequency	Max Electrical current	Dimen- sions W x D x H	Weight no oil	Max. Flow low pressure	Usable Oil volume	Oil tank volumen	
[bar]	[V]	[Hz]	[A]	[mm]	[Kg]	[L/min]	[L]	[L]	
1 x 1500 1 x 2500 2 x 1500 2 x 2500	1 x 120	50/60 Hz	5.4	247 x 347 x 546	30/33	1.5	1/1.7	1.5/2.6	
	1 x 230		3.5						

#### Highlighted features:

- Operational in a wide range of temperatures and pressures
- Low noise level
- Cabled or wireless remote control for easy operation
- Ideal for service purposes
- Light weight and handy unit with retractable handle
- Wheels for easy transportation

#### Disclaimer:

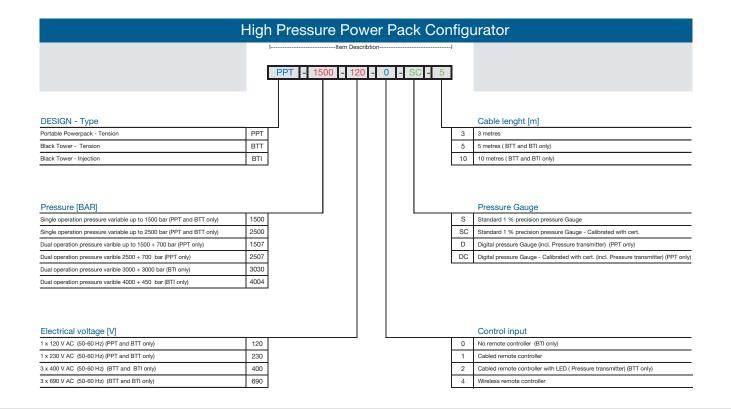

Values are approximate and only shown for illustration of how the pump works with a 2 meter  $\frac{1}{4}$  hose and closed value attached. Depending on size and quantity of toolings, pump behavior will deviate from the shown curves.

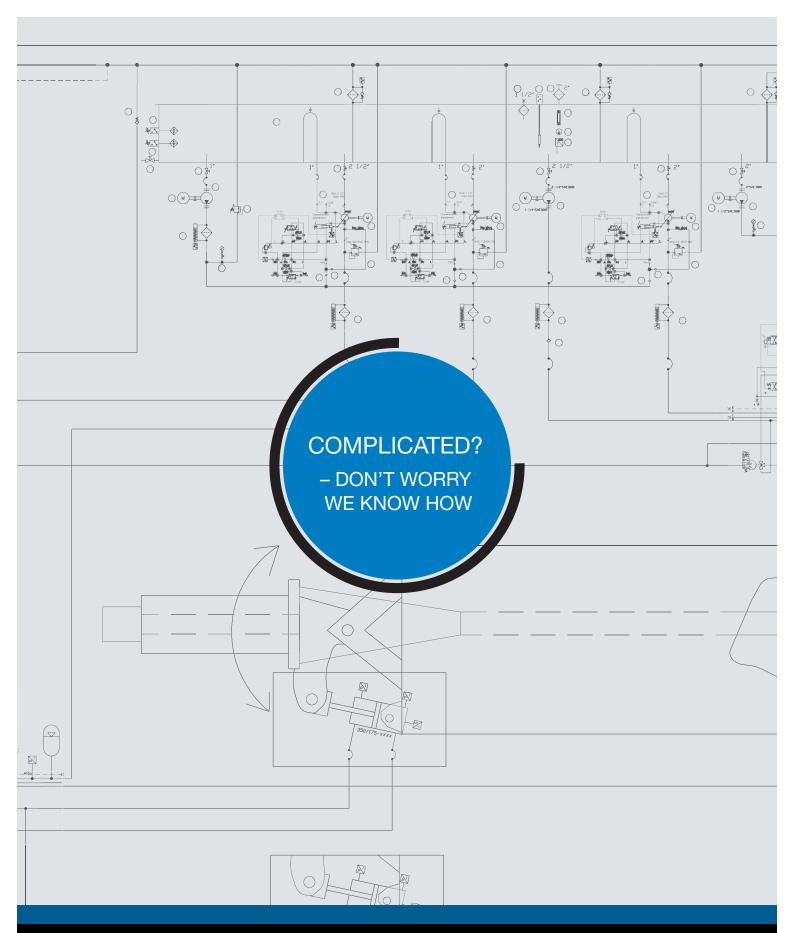

The power pack can be configured to suit your actual requirements, and thereby optimize the scope of supply and consequently the price. Our configurator enables you to match:

- Design type of power pack
- Hydraulic pressure
- Electrical voltage and frequency
- Cable length
- Control input
- Type of pressure gauge with or without 5 point pressure gauge calibration certificate

## Hydraulics worldwide

Serman & Tipsmark is a specialist supplier of hydraulic solutions. We design, develop, produce and deliver customised hydraulic system solutions for the Industry, Offshore/Marine, Mobile and Energy sectors. Serman & Tipsmark
